Garden in a Bag - Potting Shed Creations
Bags/Sack gardens, also known as "vertical farms or gardens", are tall sacks filled with soil from which plant life grows. This concept for a small, portable garden is good for areas where the gardener may have to continually relocate, as well as for areas where there is little or no healthy soil (as the soil in the bag is contained).

Bag gardens - Appropedia: The sustainability wiki
It is hard to feed her kids. White people own most of the farmland in South Africa. Meg does not have land for a garden. Food costs a lot of money. But Meg has a very good way to grow food. She finds a big sack. She puts rocks in the middle of the sack. She fills the rest of the sack with dirt. She makes little holes in the side of the sack.
