Autism Diagnostic Observation Schedule Ados

The Autism Diagnostic Observation Schedule (ADOS) is an instrument for diagnosing and assessing autism. The protocol consists of a series of structured and semi-structured tasks that involve social interaction between the examiner and the person under assessment.

Autism Diagnostic Observation Schedule - Wikipedia

ADOS stands for Autism Diagnostic Observation Schedule. ADOS is a standardized diagnostic test for Autism Spectrum Disorder (ASD), published by Western Psychological Services (WPS) in 2000 and now available in 15 different languages. Since that time, it has become one of the standard diagnostic tools both school systems and independent clinicians use when screening for developmental disabilities.
