Consumer demands for a more holistic experience, better outcomes, and greater transparency in pricing are some of the key factors powering the shift toward consumerism in healthcare. Delivering a consumer-centric model in support of this shift requires highly relevant communications that effectively meet heightened customer expectations.

How to Build a Consumer-Centric Healthcare Organization

User Centered Design. IHTs are designed to enhance health behavior changes and the management of illness, 12 but their ultimate success depends on whether the intended users (e.g., patients) find the applications useful. Usability is defined as the measure of the ease with which a system can be learned and used, including its safety, effectiveness, and efficiency.
