DEI Viper 508d Manual and Advice? Measure the output voltages with nothing connected, and then again with deei resistor from output to 5V. Great, thanks so much for your help! This means you can connect the signal pin to a Arduino digital input pin, but you need to connect it to a pull up resistor so you get a constant maual.

### **Viper Owner's Guides and Manuals**

Overview: The 508D Dual Zone Motion Sensor used an ultra-high frequency field to detect objects of sufficient mass which move within a defined area. The 508D triggers the first stage output if an object is detected in the outer zone of coverage, while the second stage output is triggered if the inner zone is violated.
