Ducati 999r Xerox Engine

The Ducati 999 superseded the Massimo Tamburini designed Ducati 916, Ducati 996 and Ducati 998 range of superbikes in 2003, and was produced through 2006. This motorcycle enjoyed great success in World Superbike, and was raced in the series through the 2007 season, despite no longer being produced, pending rules changes by the series' governing body, FIM, to allow competition of the new Ducati ...

I sold a 2005 999R engine a while ago, we did some trading, but still got \$3,000+ value out of it. IIRC mine had 8k miles on it and not as many goodies as that one. I would think to the right buyer that is a \$3,500 engine all day. It does have the correct sandcast cases, magnesium parts, and CF belt cover. It will sell if he sits

Ducati 999r Xerox Engine - time.simplify.com.my

The 999R was designed by Pierre Terblanche amid much controversy over its styling, despite this it is known as an extremely high performance race orientated motorcycle. With its traditional Ducati twin desmodromic valve actuated engine layout it has a linear power delivery with high power and torque figures available even at low RPM.
