Free will is the ability to choose between different possible courses of action unimpeded.. Free will is closely linked to the concepts of moral responsibility, praise, guilt, sin, and other judgements which apply only to actions that are freely chosen.It is also connected with the concepts of advice, persuasion, deliberation, and prohibition.

Free will - Wikipedia

In the paper 'No experimental evidence for the significant anthropogenic climate change,' which is yet to be accepted for peer-review but is published online, a team of scientists at Turku University in Finland determined that current climate models fail to take into account the effects of cloud coverage on global temperatures, causing them to overestimate the impact of human-generated ...

TIL that in 1965, a morbidly obese man didn't eat food for over an entire year. The 27 year old was 456lbs and was put under an experimental fast by doctors. He ingested only multivitamins and potassium tablets for 382 days and defecated once every 40 to 50 days.

This 450 Pound Man Fasted For Over A Year And He Lost More ...

Who is the Man's Man? He's the real class act. He always shaves and wears clothes that fit. He's worldly, educated, and a gentleman. He thinks that buttoned shirts are not just for special occasions and that newspapers have more than one section. While he is polite, he is not a pushover. He will swear when he needs to, but will try to control his temper.
