Ford 289 Firing Order Diagram

This little Ford engine took Jim Clark to 2nd place and Dan Gurney to 7th. Ford was back in racing. The next year gave Ford the platform to display their new small block motor. The first car to enjoy the now 289 was the Ford Mustang. Out on the west coast, a entrepreneur happened to convince Ford their new small block would be ideal to use in ...

289 Engine Specifications | Classic Cars

A high-performance version of the 289 engine was introduced late in the 1963 model year as a special order for Ford Fairlanes. The engine is informally known as the HiPo or the K-code' (after the engine letter used in the VIN of cars so equipped). Oddly, this engine was introduced in 1963 as the only 289 engine available in the intermediate Fairlanes.

Ford's 289-cubic-inch V-8 is the second engine in the 90-degree V-8 series of engines, which began with the 221-cubic-inch V-8 in 1962. The 221 was followed by the 260 in 1963. Ford increased the stroke of the 260 to 3 inches to make the 289 in 1964. The other engines in the 90-degree V-8 series are the 302 and 351W.

Instructions for Ignition Timing in a Ford 289 | It Still Runs

Locate the date code stamped on the right side of the Ford block, just above the starter on Boss 302, 351W/351C and 221/260/289/302 engines. The date code can also be on any machined surface of the block and will have four alphanumeric digits, such as "5E30."

Choosing the right water pump for your small-block Ford doesn't have to be a daunting task. There's no magic here. A handful of basic types were used. All Ford small-blocks, except the 289 High Performance, prior to 1966, were equipped with aluminum water pumps (C5AZ-8501-K) from the factory.

Ford Small-Block Engine Interchange Guide: Cooling System

To identify a Ford motor, start by checking valve cover bolts on the top of the engine for Ford markings. If the bolts are unmarked, look for an ID tag for manufacturer information. Tags can be found under coil attaching bolts for 6-cylinder engines and some 8-cylinder engines, or under the dipstick attaching bolts on other 8-cylinders.
