From Gutenberg To The Global

Will the emerging global information infrastructure (GII) create a revolution in communication equivalent to that wrought by Gutenberg, or will the result be simply the evolutionary adaptation of existing behavior and institutions to new media? Will the GIi improve access to information for all? Will it replace libraries and publishers? How can computers and information systems be made easier ...

From Gutenberg to the Global Information Infrastructure ...

Global access to information is a laudable goal: as the author points out, "If knowledge indeed is power, then a global information structure could empower people around the world by improving their access to information" (p. __?__ Pub Fmt interword-space>53). People have been reaching toward this goal, as the title says, since Gutenberg.
