Open Problems in Topology II - University of Newcastle

The basic problem of topology here is the problem of comparing not individual topological spaces but whole classes of topological spaces which, especially in an axiomatic approach, usually correspond to distinct topological invariants or combinations of them.

Topology, general - Encyclopedia of Mathematics

Topology underlies all of analysis, and especially certain large spaces such as the dual of $L_1(Z)$ lead to topologies that cannot be described by metrics. Topological spaces form the broadest regime in which the notion of a continuous function makes sense.
