- On this screen you want to set a Manual IP. You need to set an IP address outside the range that the router automatically sets (called the DHCP range). If you know what that is, set an IP outside that range but no higher than 254 (the last number in the address). If you do not know this, enter the current IP address.

HP Photosmart Premium C410 alignment failure and does not ...

Hey juraf50. If you have performed all the steps in the document, cleaned contacts of the cartridges and matching contacts in the printhead of the printer, replaced the cartridges, replaced the printhead of the C410a, and the problem is still continuing then it is an issue with the electronics of the ink system in the printer itself.

My Photosmart C410 will not spin it's rollers forward for the paper to be rolled up and pulled. I've cleaned the rollers and whme I look with a mirror and flashlight the rollers do not spin forward but when it pulls itself back up the rollers spin backward. If I force the page through it will pick it up through the rollers further back.
