These factors are, in large part, the problems facing Iveco and its Stralis cab-over. For one reason or another, the brand's powerbrokers have for many years done little to incite long-term confidence, while mechanical issues have dogged any regard for reliability, particularly concerning the Cursor engine. However, things may be changing.

I have an Iveco D220 COE which is my spare for when the 450 is down. It is 5.4 l. turbo, not aftercooled, 120 HP, and will pull my 26k trailer along all day at 62 mph (100 kph) on about 2/3 of the fuel that the PSD uses. It has NEVER had an engine problem in about 300k miles. Parts are available, but expensive.
