Mack truck DPF problems - YouTube

The Mack MP8 13-liter engine at first glance seems to be very similar to any other modern day diesel power plant. It uses the standard emissions devices including the EGR system, DOC (Diesel Oxidation Catalyst), DPF (Diesel Particulate Filter), electronic injection and VGT (Variable Geometric Turbo). But, behind the scenes are some interesting details that make the engine unique.

Understanding the Mack MP8 - Engine Builder Magazine

That profile is successfully maintained in the MP7 by Mack's V-MAC IV electronic engine controls. Mack's camshaft is integral to the way the engine works and feels - valve timing, etc, - making a huge contribution to the performance and personality of the engine.
