need help timing mazda 2.0fe i have a yale flit model #GLP050RGE835 serial #E177B22710V and replaced the cylinder head, and now it doesn't run. i have the cam sprocket with A at the mark on the head and the cylinder 1 at top dead center compression stroke. the lift will run poorly at wide open throttle, and will not idle. any help would be ...

need help timing mazda 2.0fe, DISCUSSION FORUM

All three of these engine styles have either FE or F2 stamped into the corner of the deck on the engine block. The issue with this is that when an engine is resurfaced, the stampings get machined off of the block. Also it's not the easiest task to find the tab on a hard-worked, dirty engines. The list below will breakdown the different engines so that you can properly identify what Mazda forklift engine you have. Mazda FE - 2.0L Timing Belt

Attach the red clip of the timing light to the positive terminal first, and the black clip of the timing light to the negative terminal second. Connect the timing light clamps to the number 1 spark plug wire connected to the engine's cylinder head. Shine the actual timing light on the yellow mark located on the crankshaft pulley.

How to Set the Timing on a Mazda 626 | It Still Runs

Once you feel compression building, look for the zero mark on the harmonic balancer to approach the timing tag. We prefer to set the initial timing for most engines at 10 degrees Before Top Dead Center (BTDC). With that set, remove the cap from the distributor. We're using a Summit HEI distributor.

How to Install a Distributor and Set Initial Timing

on the timing marks on the cam pulley and crank i believe there is a hidden knotch on the deflector washer behind the crank pulley that should be pointing at the indicator on the block, the key for the pulley hub should point directly up 12 o clock and use the A setting on the cam pulley pointing straight up also if i remember correctly.
