Sport Jet Powerheads - Quicksilver Products

The Mercury® Sport Jet is the perfect power option when you need to get into the shallows. Thanks to its unique engineering, the Mercury Sport Jet offers unparalleled maneuverability.

Without props or skegs to get snagged on underwater obstructions, your boat can move easily into areas that outboard- or sterndrive-powered boats can't get near.

I had problems with my 99 mercury sport jet 175xr2 last year, took it to mercury dealer and had them rebuild all three carburetors. It seemed to run ok after that except RPM at WOT were only about 4500 or so max (service guide says it should be around 5200)

Mercury® jet-drive outboards are specifically designed to pilot boats in shallow waters where propeller-driven hulls are unable to operate. Because there's no lower unit extending below the hull, the jet drive permits passage over obstacles that would restrict access to a propeller-driven outboard boat.
