Edition ...

The five basic risk management principles of risk identification, risk analysis, risk control, risk financing and claims management can be applied to most any situation or problem. One doesn't realize that these principles are actually applied in daily life over and over until examples are brought to light.

1.6 The management of risk at strategic, programme and operational levels needs to be integrated so that the levels of activity support each other. In this way the risk management strategy of the organisation will be led from the top and embedded in the normal working routines and activities of the organisation.
