Offered by Coursera Project Network. In this guided project, you will get hands-on experience working with a relational database using MySQL Workbench from Oracle. The basic knowledge you learn will allow you to work with any other relational database. At the end of this project, you will be able to create a billing report and a club member roster.

### **Introduction to Relational Database and SQL**

Microsoft Access. Is a relational database tool. This means that all data is organized into (related) tables. You may use the tool to budget your monthly expenses, organize your library catalogue or maintain an elaborate address book; the key lies in structuring your data into simple, non-redundant tables that can be linked together.
