Pedagogy - Pedagogy - Teaching theories: educational psychology: The earliest mental-discipline theories of teaching were based on a premise that the main justification for teaching anything is not for itself but for what it trains—intelligence, attitudes, and values. By choosing the right material and by emphasizing rote methods of learning, according to that theory, one disciplines the ...

Pedagogy - Teaching theories: educational psychology ...

Educational psychology is a specific field which examines children in school settings and how emotions, social interactions, and cognition affect learning. Answer and Explanation:

Why is educational psychology important to students ...

Pedagogy, study of teaching methods, including the aims of education and the ways in which such goals may be achieved. The field relies heavily on educational psychology, which encompasses scientific theories of learning, and to some extent on the philosophy of education, which considers the aims and value of education from a philosophical perspective.
