The Recreational Dive Planner (or RDP) is a decompression table in which no-stop time underwater is calculated. The RDP was developed by DSAT and was the first dive table developed exclusively for no-stop recreational diving.

Recreational Dive Planner - Wikipedia

Even after the recreational diving industry published a variety of training manuals, the U.S.Navy Diving manual remains a respected and widely used reference by recreational technical and professional divers worldwide. This may be partly due to the ease of access, as the later versions have been freely available for download as pdf files.
