Short selling is the sale of a security that is not owned by the seller or that the seller has borrowed. Short selling is motivated by the belief that a security's price will decline, enabling it ...

**Short Selling - Investopedia**  
A solution to this short sale problem is to put pressure on the second lender to take the short sale or get the first lender to contribute more. A first lender might back down and agree to pay more. If a first lender's guidelines prohibit that payment, the guidelines might allow, say, a credit to the buyer toward closing costs , who can then pay the second.
