Evidence for Intelligent Design is a 2009 book about intelligent design by philosopher and intelligent design advocate Stephen C. Meyer. The book was well received by some within the conservative, intelligent design and evangelical communities, but several other reviewers were critical and wrote that Meyer's claims are incorrect.

Signature in the Cell - Wikipedia

Dr. Meyer has certainly made belief in the existence of a creative Intelligence as the source of life in this universe and the progenitor of “laws of biology” not only more credible, but almost persuasively convincing. “Signature in the Cell” is an excellent book.
