Straw Bale Gardening  
Pros. Straw bale  
gardening is just that,  
planting your seedlings  
into bales of straw.

They function  
essentially as a raised  
bed (each bale is  
14-16 inches high) and  
a container garden in  
one. As the straw  
breaks down over the  
course of the summer,  
it turns into compost  
that feeds your plants.  
Advantages to the  
method ...

Cons of Straw Bale

Gardening. The main drawback of straw bale gardening would, first, have to be the cost, especially if you're only planting in one or two.

One other con is definitely minor, but it's worth mentioning.

In the early stages of the conditioning process, the organic nitrogen sources attract flies.
