The Neuro-Image: A Deleuzian Film-Philosophy of Digital Screen Culture. Patricia Pisters. Stanford: Stanford University Press 2012, (376 pages). ISBN: 9780804781350. Thorsten Botz-Bornstein . What is the difference between a mind and a brain or, more precisely, between a mind-image and a brain-image?

The Neuro-Image: a Deleuzian Film-Philosophy of Digital ...

As the title indicates, Pisters introduces her term "neuro-image" as a third category in addition to Deleuze and Guattari's categories of the movement-image and time-image. The book starts with the example of Michael Clayton (Tony Gilroy, 2007) and through this film, her "schizoanalysis," as Deleuze calls it, unfolds in three layers: the power of delirium, the power of the false, and the powers of affect.

The Neuro-Image: A Deleuzian Film-Philosophy of Digital ...

Arguing that today's viewers move through a character's brain instead of looking through his or her eyes or mental landscape, this book approaches twenty-first-century globalized cinema through the concept of the "neuro-image." Pisters explains why this concept has emerged now, and she elaborates its threefold nature through research from three domains- Deleuzian (schizoanalytic) philosophy, digital networked screen culture, and neuroscientific research.

[Read book] The Neuro-Image: A Deleuzian Film-Philosophy ...

The neuro-image, according to Patricia Pisters, is the successor to Deleuze's time-image, which for him succeeded the movement-image, the proviso being that all these forms of the image are not mutually exclusive.

Patricia Pisters (2012) <italic>The Neuro-Image: A ...

The Neuro-Image investigates cinema's survival in the digital age through neuroscientific and philosophical understandings of the brain, our conception of the future, and the affective intensity of contemporary screen culture.

The neuro-image : a Deleuzian film-philosophy of digital ...

In The Neuro-Image: A Deleuzian Film-Philosophy of Contemporary Screen Culture (2012), I suggest that cinema gives us increasingly intensely direct access to character's brain worlds. Our audio-visual images co-evolve in resonance with the knowledge we have of principles of the brain and with a philosophical understanding of the complex entanglements between bodies, brains and world.
