Human Causes of Water Pollution A considerable measure of

# Where To Download The Produce Contamination Problem Causes And Solutions Food Science And Technology

water contamination originates from human movement. Some human causes incorporate sewage, pesticides and composts from ranches, squander water and chemicals from plants, residue from development destinations, and junk from individuals littering.

## **Water Contamination : What are the causes?**

Beginning about 1000 CE, the use of coal for fuel caused considerable air pollution, and the conversion of coal to coke for iron smelting beginning in the 17th century exacerbated the problem. In Europe, from the Middle Ages well into the early modern era, unsanitary urban conditions favoured the outbreak of population-decimating epidemics of disease, from plague to cholera and typhoid fever .
