The Silk Roads A New

Far more than a history of the Silk Roads, this book is truly a revelatory new history of the world, promising to destabilize notions of where we come from and where we are headed next. From the Middle East and its political instability to China and its economic rise, the vast region stretching eastward from the Balkans across the steppe and South Asia has been thrust into the global spotlight in recent years.

The Silk Roads: A New History of the World by Peter Frankopan

The Silk Roads were no exotic series of connections, but networks that linked continents and oceans together. They were - and still are - the world's central nervous system. This is where empires were won - and where they were lost. As a new era emerges, the patterns of exchange are mirroring those that have criss-crossed Asia for millennia.

The Silk Roads - Peter Frankopan

The land route of the Silk Road also appears to remain a niche project in terms of transport volume in the future. In the maritime silk road, which is already the route for more than half of all containers in the world, deepwater ports are being expanded, logistical hubs are being built and new traffic routes are being created in the hinterland.
