In order to simplify the use of NCCI edit files, CMS will consolidate the two edit files into the Column One/Column Two Correct Coding edit file. Separate consolidations will occur for the two practitioner NCCI edit files and the two NCCI edit files used for OCE. This change will occur for practitioner NCCI edits in NCCI version 18.1 scheduled for April 1, 2012.

PTP Coding Edits | CMS

NCCI Procedure-to-Procedure (PTP) code pair edits are automated prepayment edits that prevent improper payment when certain codes are submitted together for Part B-covered services. In addition to PTP code pair edits, the NCCI includes a set of edits known as Medically Unlikely Edits (MUEs).
