And what's on the other side? Rainbows are visions But only illusions And rainbows have nothing to hide So we've been told and some choose to believe it I know they're wrong wait and see

Kermit the Frog - The Rainbow Connection Lyrics - Genius

An antipode is a point that is on the exact opposite side of the earth (or other sphere) from a given location. If you drew a line (vector) from your location to the center of the earth and continued that line until it emerged from the other side of the earth's surface, that point of intersection on the other side is the antipode.
