New economy is a buzzword to describe new, high-growth industries that are on the cutting edge of technology and are believed to be the driving force of economic growth and productivity.

## **New Economy Definition - Investopedia**

The New Economy creates new opportunities for investors. Every day, traditional sectors and industries are transforming as innovation and artificial intelligence (AI) create technological shifts in our modern economy. These shifts will impact everything from where we live and the jobs we do to the food we eat and how long we live.

## **Invest Thematically in New Economy ETFs**

The “new economy” is a term many economists started to use in the last decade of the 20th century. They argued that information technology, the Internet, ultra-high-tech companies and globalization had created a completely new type of economy, with considerably greater productivity and growth rates than the old one that it replaced.
